

# AN EXCELLENT OPPORTUNITY HAS ARISEN FOR **TWO DEDICATED VETS** TO JOIN OUR FRIENDLY AND PROGRESSIVE TEAM AT ORMONDE VETERINARY.

Ormonde Veterinary is an 8 full time, 2 part time vet practice that has been providing a high standard of veterinary care for farm and companion animals (75%/25%) in Kilkenny for over 30 years. Even though the work is predominantly dairy, we also have a number of beef and sheep clients. Kilkenny is an intensive dairying area and currently we have over 40,000 dairy cows in our practice.

Due to an expanding case load we are looking for two dedicated vets to join our team.

- One post would ideally suit a certificate holder or someone with an interest in pursuing further experience and qualifications in farm animal practice.
- The second post would suit a vet with experience, looking for the next step up in their career although an enthusiastic new graduate will be considered.

Due to our progressive ethos, regular herd health planning and in-depth herd health investigations are an important part of our day-to-day work. Applicants must have a genuine interest and be eager to complete this preventative work to a high standard.

We work as a team with a strong emphasis on collaboration and communication. We value the input of each team member, and we are open to new ideas so you will have an opportunity to grow and develop within the practice. We run a monthly clinical club and find it encourages sharing of knowledge and interests.

## THE IDEAL CANDIDATE SHOULD:

1. Be registered with the VCI.
2. Have at least two years' experience in a farm veterinary practice.
3. Have good communication skills.
4. Be able to work as part of a team.
5. Be highly motivated and able to work on his/her own initiative.
