

DAIRY FLAT-AUCKLAND, New Zealand
MIXED ANIMAL VETERINARIAN
VETERINARY HOSPITAL GROUP

WHERE PETS ARE PRECIOUS

COME FOR AN ADVENTURE IN NEW ZEALAND!

Are you looking for a position where no two days are ever the same? Where you can help animals of all shapes and sizes and work within a team who have each-others back, enjoy a laugh (and the odd wine) and are committed to their patients, clients and each other!

Do you want to enjoy a rural lifestyle close to beautiful beaches and the Hauraki Gulf while being a stone's throw from Auckland and all the social, sporting and cultural experiences it offers?

THEN WE HAVE A ROLE FOR YOU!!!

Dairy Flat Vet Hospital is a mixed practice with a large & growing client base with around 80% Small animal work and the rest lifestyle block/pleasure equine. We are looking for a mixed animal veterinarian dedicated to practising good quality medicine and having fun while you do it! The position could be full or part time. Some after-hours for large animals only is required but this is traditionally very quiet and a day off in lieu following a weekend on call is standard.

The clinic is well equipped with digital DR x-ray, fixed & portable U/S, endoscopy, Abaxis laboratory equipment and separate cat/dog and isolation hospitalisation areas.

Dairy flat vet hospital is part of the independently owned Veterinary Hospital Group. Within the group there are 30+ vets including those with special interests and advanced training in surgery, internal medicine, feline medicine, dermatology and ophthalmology. There is a generous baseline CPD allowance, frequent group CPD, and the potential to enter our "advanced practitioner pathway" where additional funding and time off to study can be provided.

We focus on providing an extremely supportive work environment with friendly staff dedicated to providing excellent patient care.

Remuneration is based on experience and expertise and includes Vet council and NZVA registration and a generous CPD allowance. For those relocating from outside New Zealand a relocation allowance and support with Visa's can be negotiated.

If you are looking for a challenging and rewarding position in an environment where you can enjoy your work and personal time, please contact:
